

CIRCUMCISION STAPLER

CircumZone™

Disposable Circumcision Stapler

CIRCUMZONE CIRCUMCISION STAPLER

CircumZone™

CIRCUMZONE BODY, HEAD AND ANVIL

A one-piece circular knife makes the cut and the staple line lands in the same movement, which is what compresses a procedure normally measured in sutures into one measured in minutes.

A silicone gasket sits behind the staple line for haemostasis, and the anvil is a single piece of metal, so the geometry does not shift as the instrument is closed.

— Key Differentiators

01 **Silicone gasket**
Improves haemostasis along the full circumference of the closure.

02 **Integral metal anvil**
One-piece construction keeps the closure stable through firing.

03 **One-piece circular knife**
A single continuous cut for a cleaner cosmetic edge.

04 **Eight sizes**
From 13 to 34 mm, so the instrument is fitted to the patient rather than the reverse.

— Ordering — **circumcision staplers**

CODE	CUTTING Ø	STAPLE HEIGHT	STAPLES
FZPES-13	13 mm	2.8 mm	10
FZPES-15	15 mm	2.8 mm	11
FZPES-19	19 mm	2.8 mm	13
FZPES-22	22 mm	2.8 mm	16
FZPES-25	25 mm	2.8 mm	18
FZPES-29	29 mm	2.8 mm	22
FZPES-32	32 mm	2.8 mm	24
FZPES-34	34 mm	2.8 mm	26

Short operating time and rapid wound recovery compared with a hand-sewn closure. Ergonomic handle designed to resist slippage during operation.

Secure and stable healthcare products

FourZone Healthcare develops and manufactures devices that improve patient outcomes and advance minimally invasive surgery. Everything in this catalogue is made to one standard, whether it is used in the first minute of a case or the last.
